ABOUT NATALIA

Natalia Kuna is an Intuitive, Energy Healer, Spiritual Coach, host of "Spiritual Soul" podcast and founder of Spiritual Course Academy, featuring online Spiritual Development courses on energy management, intuitive development, mindset and transformation for empaths, energy sensitives and those on the spiritual path, so they can learn, grow and align back to soul.

Natalia has had three true angel stories published in Hay House books by Doreen Virtue, about her real angel experiences, including an angel appearing in her room as a child, and being alerted of danger as a young adult. She trained as a certified Angel Intuitive, which opened up a beautiful, genuine gateway for her to work with angels in her readings, energy healings, as well as in her intuitive messages and energy updates for the public.

Natalia guides, heals and uplifts people, helps them release toxic energy, raise their vibration and move into deeper self-awareness, teaching tools and techniques to allow them to cope better and understand what is happening on a deeper level, so they can align into their true, authentic, higher selves and awaken their innate sense of soul essence and purpose.
